

Lead generation partnership

VAT Reclaim Service

GB Business VAT

VAT Reclaim Service

GB Business VAT Ireland Limited offers partners a VAT Reclaim Service that can be provided to your clients.

This service enables your clients to make substantial savings on their business travels in the EU.

A huge benefit for any company, especially in the current economic climate.

Business opportunity

Partnership

GB Business VAT Ireland Ltd has started mutually beneficial partnerships with various partners in Europe.

With these partners we have implemented lead generation activities based on a revenue share to raise awareness for the VAT Reclaim Service and the benefits of using this service.

GB Business VAT Ireland Limited would like to set up more partnerships.

Are you our next partner?

Profitable opportunity

The rewards

Offering a VAT Reclaim Service can be very profitable as the partner will receive a percentage commission for the leads that are generated.

IMPORTANT – The partner will receive commission for each successful claim and will keep on earning automatically, as long as the partnership is up and running and the client keeps submitting their VAT reclaims to GB Business.

And all this is without any involvement or activities of the partners after the initial lead is generated.

Value added service

Advantage

The most important factor is that the partner has an existing client base or access to business travellers. This makes it easy to start-up this additional revenue channel and with little effort you will be able to promote and implement the service and offer your clients this added value service.

This service can even be offered under your own brand, as GB Business can white label the service if required.

Lead generation

Where to start?

All that needs to be done is identifying customers based on the following 2 criteria:

- 1) Does the client travel for business in the EU?
- 2) Do they want to reclaim VAT on business travel expenses?
